Acer griseum
Peeling Chocolate bark make this little ornamental tree highly prized. Scarlet and orange fall colour.

Fern Leaf or Dancing Peacock Maple Zone 5
Acer japonicum Acontifolium
Deeply dissected leaves that are 6 inches across. Grows upright with a beautiful red fall colour.

Acer japonicum Attaryi Zone 5
Deeply dissected leaves that are even larger than Acontifolium. Grows about 1 foot a year. Fall colour red/orange.

Acer japonicum Green Cascade Zone 5
A flat or weeping form with dissected leaves. Fall colour reds, oranges and yellows.

Acer japonicum Itaya Zone 5
Extremely large leaved form usually multi-stemmed. Grows about 1 foot a year. Nice fall colour.

Acer japonicum Meigetsu Zone 5
Another beautiful variety similar to Acontifolium. Deep scarlet, burgundy wine fall colour.

Acer japonicum O isami Zone 5
Small shade tolerant tree with new growth yellowish to pink and finally green. Burgundy fall colour.

Nikko Maple
Acer maximowiczianum Zone 5b
Small Chinese tree with almost black bark as the tree gets older. Red fall colour mature at 20 feet

Japanese Maple Zone 5
Acer palmatum
The green leaved form of Japanese maple. Very attractive in all seasons.

Ribbon Leafted Japanese Maple Zone 5

Acer palmatum var. Atropurpureum
Red leaved Japanese Maple seedlings. Some variability due to being raised from seed and not grafted.

Narrow Leaved Japanese Maple
Acer palmatum Atrolineare Zone 5
Leaves are almost black red and are thin string like. Grows to 12 feet.

Bloodgood Japanese Maple
Acer palmatum Bloodgood Zone 5
Bloodgood Red leaves all summer and bright red Fall colour

Butterfly Japanese Maple Zone 6
Acer palmatum Butterfly
Leaves pink, white and green. Slow grower. Red bark

Chishiso Improved Japanese Maple- Zone 6
Acer palmatum Chishiso Improved
Leaves in spring are pink and bronze Fall colour- Orange/Red RARE!

Crimson Queen Laceleaf Japanese Maple Zone 5b
Acer palmatum Crimson Queen
Among the best reds of the laceleaf varieties. Our trees are grafted at 4 feet and 5 feet and bottomed grafted. Nice full heads

Green Cutleaf Maple
Acer palmatum Dissectum (Viridis) Zone 5
A true garden classic. Mint green feathery leaves in summer, fiery oranges in fall. Excellent cascading/weeping tree.

Emperor 1 Japanese Maple Zone 5
Bright red leaves last all season long. Fairly new cultivar. Very hardy. May be the best red on the market.

Inaba Shidare Weeping Cutleaf Maple Zone 5
Acer palmatum Inaba Shidare
Nice weeping red cutleaf form. Has been in cultivation since the 1800's. Stake for height otherwise it will mound.

Jewel of Japan Japanese Maple Zone 5
Acer palmatum Hogyoku
Soft green leaves and branches. In the fall the tree looks like a pumpkin on a stick. Very striking.

Kasagi yama Japanese Maple Zone 6
A most unusual type with red and green-edges and nearly black veins. Nice fall colours. Very interesting and unusual.

Katsura (Floating Cloud) Japanese Maple Zone 5
Acer palmatum Katsura
Leaves emerge orange-yellow and turn to bright yellow. Peach fall colour. Mature at 15 feet.

Coral Barked Maple Zone 5
Acer palmatum Sango Kaku
Light green leaves in summer with blood red stems. Fall colour shades of orange, apricot and yellow.

Jessica Japanese Maple Zone 5
Very vigorous green/amber leaved form. Forms a small tree quickly. A mix of apricots, red and oranges for a nice showy fall display.

Osakasugi Japanese Maple Zone 5
Leaves emerge maroon change to green and back to purple in the fall. Trunk develops white strips. Also called the Snake Barked Maple

Acer palmatum Orangeola New growth is orange and then changes to a mottled red. Nice fall colours as well.	Zone 5	Royal Red Norway Maple Acer platanoides Royal Red Probably the most popular variety of maple on the market. Deep red leaves persist all season.	Zone 4
Peaches and Cream Japanese Maple Acer palmatum Peaches and Cream New growth peach and cream coloured. New hybrid from Australia. Just peachy.	Zone 5	Red Maple Acer rubrum Our native maple with fall colour from yellow to red. Fast growing tolerates moist soils.	Zone 4
Red Dragon Cutleaf Weeping Japanese Maple Acer palmatum Red Dragon Good red colour, needs to be staked for height. Bright red fall colour.	Zone 5	Variiegated Redvein Maple Acer rufinerve Albolimbatum One of the snake barked maples. This form has nice variegation on the leaves. Mature at 15 feet.	Zone 5b
Red Pygmy Japanese Maple Acer palmatum Red Pygmy Thin slender red leaves to 6 feet or so. Looks like it is bamboo. Fall colour oranges and red.	Zone 5	Cutleaf Silver Maple Acer saccharinum Born's Gracious Unbelievable lacy form of the silver maple. When it could easily confused with a dissected Japanese maple. Fairly strong growing.	Zone 4
Seedlings from Johnin Japanese Maple Beautiful hybrid with big red/maroon dissected leaves. Rare!	Zone 5	Junihitoye Asian Maple Small ornamental tree selection with tiny leaves. Rich gold fall colour.	Zone 5
Upright cutleaf Japanese Maple Acer palmatum Seiryu Nice airy look to this cutleaf. Fall colour purple and red. Mature at 12 feet.	Zone 5	Siebolds Maple Acer sieboldianum Mikasa yama Small sturdy tree with silky green leaves. Fall colour is gold. Mature at 15ft.	Zone 5
Shaina's Dwarf Japanese Maple Acer palmatum Shaina Oval growing form to 6 feet. Leaves are small and the plant is extremely compact.	Zone 5	Oriental Snake Bark Maple Acer tegmentosum White Tigress Pure white streaks running vertically along the trunk. Eye catching from a mile away. Deep gold fall colour.	Zone 5
Skeeter's Broom Japanese Maple Acer palmatum Skeeter's Broom A compact dwarf form with red leaves. From a witches broom.	Zone 5	Shagbark Maple Acer triflorum Small ornamental tree. Bark peels in tight vertical curls. Beautiful fall colors of reds and oranges. Fully hardy and quite rare in the trade.	Zone 5
Floating Cloud Maple Small to 12 feet. Leaves are shades of green, white and pink that fade to green in summer. Fall colour peach.	Zone 6	Pink Flowered Chesnut Aesculus x carnea Briotti Smaller ornamental tree to 20 feet laden with huge carmine pink flowers. Seems to grow as wide as high.	Zone 5
Waterfall Japanese Maple Old and still popular form of the Green Laceleaf variety. Beautiful fall colour. One of my favourites.	Zone 5	Serviceberry Shrub Form Amelanchier canadensis Native shrub. One of the first trees to flower. Beautiful flower colour. Good for wildlife.	Zone 4
Eskimo Sunset Sycamore Maple Acer psuedopltanus Eskimo Sunset A medium sized growing tree with pink, white and green leaves. A real standout. Grows about 1 foot a year.	Zone 5	Crimson Leaved Birch Betula x Royal Frost Fast growing birch with dark red leaves on a pure white trunk. Grows narrowly to 30 feet.	Zone 4
Nizett's Variegated Sycamore Maple Acer psuedopltanus Nizettii A nice gold variegated maple. Not as fast growing as the species.	Zone 5	Himalayan Birch Betula Jacquemontii clump form Almost pure white bark. Shows at a very young age.	Zone 4
Autumn Fantasy Hybrid Maple Acer rubrumxsaccharinum Fast growing variety known for its long lasting burgundy fall colour. Seedless. Can grow 5 ft a season.	Zone 4	White Himalayan Birch Betulus jacquemontii Doorenbos Characterized by pure white stems and bark. Truly striking and ornamental. Mature at 20 feet.	Zone 4
Autumn Blaze Red Maple Another great hybrid selected for its fast growth and fall colour.	Zone 4	River Birch Betula nigra Fast growing tree. Cinnamon bark that exfoliates. Very resistant to the Bronze Birch Borer.	Zone 4
Princeton Gold Norway Maple Acer platanoides Princeton Gold Soft yellow leaves make a striking statement in the landscape. Large growing.	Zone 4	Variiegated River Birch Betula nigra Shiloh Splash New eye catching form gold variegated form. Fast growing.	Zone 4

European Hornbeam Carpinus betulus Stately tree in many respects like the beech however Stays smaller and is better suited for restricted areas. Pretty much insect and disease free.	Zone 5	smallest of gardens. Whistling gardens may be one of the very few places in Canada that offers this cultivars right now.
Pyramidal European Hornbeam Carpinus betulus Fastigiata Slender upright look giving the tree a very formal form. Does get a little wider over time. Excellent accent tree. Keeps its leaves well into winter.	Zone 5	Pagoda Dogwood Cornus alternifolia Our native dogwood with creamy white flowers in late spring. Excellent food source for birds and very shade tolerant.
Dwarf European Hornbeam Carpinus betulus Nana An extremely rare dwarf pyramid. Well suited to the larger rock garden. Great collectors plant. Only grows a few inches a year.	Zone 5	Variegated Pagoda Dogwood Cornus alternifolia Argentea A white variegated variety. Slow growing. A much Sought after tree. Will always be in short supply.
Korean Hornbeam Carpinus coreana About the best of the hornbeams for bonsai. Most worthy ornamental in the garden too. Tiny leaves and gray bark and it's pest resistant.	Zone 5	Golden Variegated Pagoda Dogwood Cornus alternifolia Variegata Our native dogwood tree with golden margins. Beautiful small tree with a nice layered look. New and extremely rare!
Farges Hornbeam Carpinus fargesii Distinct purple red new growth. Fall colour deep red and orange. Extremely rare.	Zone 5b	Giant Dogwood Cornus controversa One of one the largest growing dogwoods. Smothered in big white flowers in June. Red stems.
Japanese Hornbeam Carpinus japonica Beautiful leaf structure and its disease free genetics make this tree a highly prized ornamental to 20 feet. Rare in collections.	Zone 5	June Giant Dogwood Cornus controversa June A new selection of pure white and extra large flowers otherwise same as the species.
Fringe Tree Chimonanthus virginicus Shiny dark green leaves and abundant white fragrant flowers showcase this classy American native. Very versatile in the landscape. Fully hardy.	Zone 5	Variegated Giant Dogwood Cornus conterversa Variegata If you have never had the opportunity to see a specimen, you are missing out in life! Its deeply variegated white and green leaves will steal the show in any part of the garden it is planted. Growing wide at first and before making a leader. Grows to 25 feet. Gardening may never be the same again.
Eastern Redbud Cercis canadensis One of the prettiest spring flowering trees. Lavender blooms persist for a long period. Very resistant to insect infestations.	Zone 5	Golden Glory Cornelian Cherry Cornus mas Golden Glory Grows much the same as the species however flowers are larger and much more prolific. Bright yellow flowers.
Forest Pansy Redbud Cercis canadensis Forest Pansy Remarkable purple leaves emerge after it's classic lavender pea sized blooms. Small tree to 20 feet. Very striking.	Zone 5b	Variegated Cornelian Cherry Cornus mas Variegata Another stunning variegated cultivar to come along. Golden edges with dark green leaves. One of the few yellow spring flowering trees. Grows to 15 feet. Disease and pest free.
Lavender Twist Redbud Cercis canadensis Lavender Twist Lovely semi weeping form with contorted branches as well. Classic lavender pea sized flowers in early spring.	Zone 5b	Flowering Dogwood Cornus florida Beautiful small tree. White flowering in spring and has nice tones in the fall.
Katsura Tree Cercidiphyllum japonica Medium sized ornamental with small heart shaped leaves. Smells like cotton candy. Fall colour yellow. Mature at 25 feet.	Zone 5	Cherokee Brave Flowering Dogwood Cornus florida Cherokee Brave Classic small ornamental. Deep red to pink flowers adorn this plant. To 15 feet
Red Fox Katsura Tree Cercidiphyllum japonica Red Fox Incredible dark maroon heart shaped leaves of the sometimes called Cotton Candy tree. Much slower growing than the species well suited to even the	Zone 5	Cherokee Sunset Flowering Dogwood Cornus florida Cherokee Brave A soft gold leaved form. Plant in partial shade.
		Weeping Native Dogwood Cornus florida Pendula Small weeping form that needs to be staked for height. Very hard to find cultivar.
		Pink Temple Flowering Dogwood Cornus florida Pink Temple Nice pink flowering variety. Otherwise similar to the species

Satomi Flowering Dogwood Cornus kousa x Satomi Stunning salmon pink colour in spring. Small tree to 15 feet needs to be in a sheltered location for best results.	Zone 4	Purple Beech Fagus sylvatica Atropurpurea Among the most grand of all deciduous trees. This purple leaved tree with its elephant grey trunk makes an imposing specimen.	Zone 5
Elizabeth Lustgarten Weeping Chinese Dogwood Cornus kousa E. Lustgarten Weeping tree to 12–15 feet. Creamy white flowers.	Zone 4	Purple Columnar European Beech Fagus sylvatica Dawcyck Purple Dark purple foliage on a narrow upright to 30 feet. A first class plant that makes a statement in any garden.	Zone 5
Gold Star Dogwood Cornus kousa Gold Star This dogwood exhibits a large yellow patch in the centre of its leaf, which in autumn changes to pink, with the green margins shifting to red. New and RARE!	Zone 4	Golden Columnar European Beech Fagus sylvatica Dawyck Gold The gold leaved version of Dawyck's Purple a bit slower growing. Very nice accent plant.	Zone 5
Cornus kousa Hanos Radiant Rose Dogwood This trademark variety has reddish new growth and pink flowers. Hardy.	Zone 4	Tricolor European Beech Fagus sylvatica Roseomarginata A classic shade tree with pink, white and green leaves. Beautiful spring colour. Could use a bit of filtered shade for best effect.	Zone 5
Hearthrob Chinese Dogwood Variegated variety with a gold heart in the centre of the leaf. Fall colour stunning maroon and pink.	Zone 4	Weeping Purple Fountain European Beech Fagus sylvatica Purple Fountain This impressive tree emerges with orange coloured leaved turning quickly to deep purple. Main leader grows up but all side branches are very pendulous. Makes a beautiful specimen.	Zone 5
Kristin Lipka's Variegated Weeper Cornus kousa Kristin Lipka Variegated Weeper Gold margined weeping selection. I'm sure a big specimen is breathtaking. White flowers.	Zone 4	Dwarf Cutleaf European Beech Fagus sylvatica Irish Lace I don't think anybody else in Canada offers this rare cultivar. Deeply cut green leaves on a shrubby small tree. RARE!	Zone 5
Mottled Weeping Chinese Dogwood Cornus kousa Mottled Weeping New form that has cream mottled leaves on a weeping tree.	Zone 4	White Mottled Forsythia Forsythia koreana Kumson I'm not one for Forsythia's but this variety caught my eye because of it beautiful mottled leaf markings. Not as vigorous and wild as other types can be. Yellow flowers.	Zone 5
Summer Fun Chinese Dogwood Cornus kousa Summer Fun Another white margined variety but the leaves do not curl up on the edges. White edges turn pink in fall.	Zone 4	Fothergilla major Mount Airy Small tree or shrub. Fall is just amazing. Grows about 8 inches a year.	Zone 5
Wolf Eyes Chinese Dogwood Cornus kousa Wolf Eyes A heavy variegated selection equally at home in full sun or light shade to brighten a dark corner of the garden. More compact than the species with nice tones of pink and red in the fall. Very new and rare still.	Zone 4	Franklin Tree Franklinia alatamaha Distinct growing tree or shrub to 10 feet. Thought to be extinct in the wild. Has late summer blooms which is unusual for most trees.	Zone 5
Contorted Witch Hazel Corylus avellana Contorta The most twisted and contorted branches of any plant I know. Even the leaves are contorted. We have large specimens available.		Ginkgo Ginkgo biloba A prehistoric tree unchanged for millions of years. Reputedly has memory enhancing qualities.	Zone 5
Red Contorted Hazel Corylus avellana Red Majestic Small tree or shrub with the classic look of the contorted witch hazel but with the new growth a deep red colour. No two specimens look alike. New!		Ginkgo biloba Chi Chi Interesting clone found in Japan know for its round growths on branches and the trunk over time. Grows about 1 foot a year and seems more compact than the species.	Zone 5
Cottinus purpurea Purple Smoke Bush Dark purple leaves in summer scarlets and oranges in fall. Classic garden plant. Very carry several varieties now.	Zone 5	Ding-a-Ling Ginkgo Ginkgo biloba Ding-a-Ling Kind of like Chi-Chi but with "Sausage" like growths on the trunk and stems. Hmmm. Slow growing.	Zone 5
Daphne x burk. Carol Mackie Variegated Daphne Small heavily variegated evergreen bush.	Zone 5	Pyramidal Ginkgo Ginkgo biloba Fastigiata An old form with pyramidal habit. Good tree where a narrow specimen is needed.	Zone 5
Compact Thornless Hawthorn Rich dark green on a globose plant. Becomes upright Over time. Fall colour deep yellow. Slow growing.	Zone 4	Golden Globe Ginkgo Ginkgo biloba Golden Globe A new and uncommon variety of Ginkgo. Globular head with deep yellow or gold leaves in fall. To 20 feet.	Zone 4

Hyanari Ginkgo Ginkgo biloba Hyanari A female clone. One of the few available.	Zone 5	Variegated English Holly Ilex aquifolium Ferox Argentea Nice variegated form with prickly leaves. Needs to be protected from winter sun and wind.	Zone 5B
Jade Butterflies Ginkgo Beautiful dwarf pyramid. Grows about 3 inches a year.	Zone 5	Beehive Japanese Holly Dense little globe form. Ideal for rock gardens. Grows about 3-4 inches a year.	Zone 5
Mariken Globe Ginkgo Ginkgo biloba Mariken Globe compact type. Excellent rock garden plant.	Zone 5	Sky Pencil Japanese Holly Ilex crenata Sky Pencil Evergreen holly that is narrowly upright. Can reach 8 feet and only be 1 ½ feet wide.	Zone 5
Shangri-La Ginkgo Larger upright form with golden leaves in the fall.	Zone 5	Ilex verticillata Maryland Beauty A female clone with red berries.	Zone 5
Weeping Ginkgo Ginkgo biloba Pendula A weeping form now available. Our Ginkgos are grafted at 5 feet and allowed to cascade downwards. Becomes quite wide over time. Grows about 1 foot a year.	Zone 5	Ilex verticillata Soutern Gentleman A male clone needed to fertilize the female flowers for berries.	Zone 5
Princeton Sentry Ginkgo Ginkgo biloba Princeton Sentry Very narrow upright found in Princeton Nurseries New Jersey. Grows about 1 foot a year.	Zone 4	Blue Angel Holly Ilex x Blue Angel We have a few stunning specimens. Dark green almost to the point of a purple blue colour.	Zone 5
Robbie's Twist Ginkgo Ginkgo biloba Robbie's Twist New plant for me info coming.	Zone 4	Variegated Hybrid Holly Ilex x Sunsation Nice variegated form that is hardier than the English or American varieties. Still prefers a slight shady area with acidic soil.	Zone 5
Dwarf Ginkgo Ginkgo biloba Spring Grove Found by Bill Barger in Ohio I believe. Grows like the species only 1/3 the size. Heavy thick branches make this dwarf really interesting in winter.	Zone 4	Blue Ash Fraxinus quadragulata A rare endangered native Carolinian tree to 30 feet.	Zone 4
Saratoga Ginkgo Ginkgo biloba Saratoga Unusual cutleaf and beautiful deep golden fall colour makes this an ideal specimen over time.	Zone 5	Sunburst Locust Gleditsia tri. Sunburst A fast growing ornamental locust noted for its bright yellow growth which lasts well into the summer.	Zone 4
Thelma Ginkgo Ginkgo biloba Thelma Extremely slowing growing dwarf Ginkgo. Probably from a witches broom.	Zone 5	Butternut Juglans cinerea Fast growing tree that produces edible nuts. Related to walnut.	Zone 4
Tube Leafed Ginkgo Ginkgo biloba Tubiformis Slow growing variety with leaves curled up to look like tubes.	Zone 5	Sweet Gum Liquidambar styraciflua Beautiful carolinian species with star shaped leaves that turn a brilliant crimson in the fall. Grows to 80 feet. We have a few cultivars in very limited quantities.	Zone 5
Vanilla Swirl Ginkgo Ginkgo biloba Vanilla Swirl A creamy white swirled variegated form I found as a branch mutation. Just coming into production. Tree has been stable for 9 years without reverting.	Zone 5	Tulip Tree Liriodendron tulipifera A rarer carolinian tree. Becomes a large specimen over time. Beautiful leaves and makes a stately tree. Yellow and coloured flowers.	Zone 5
Windover Gold Ginkgo Ginkgo biloba Windover Gold Infor coming.	Zone 5	Columnar Tulip Tree Liriodendron tulipifera Fastigiata A very narrow form of the Tulip tree growing to 40 feet. Makes a beautiful specimen. Fall colour yellow.Rare.	Zone 5
Witches Broom Ginkgo Ginkgo biloba Witches Broom Such an amazing plant with the most boring name. Grows with perfection into a sphere up to 6 feet. Super dense and dark green leaves. Very rare and hard to find cultivar.	Zone 5	Variegated Tulip Tree Liriodendron tulipifera Aureomarginatum This much sought after tree has a gold edge around the leaf. Makes an eye catching plant in the garden. Grows about 1-2 feet a year. Rare and hard to find.	Zone 5b
Kentucky Coffee Tree Gymnocladus dioicus A most interesting growing native tree. Very stout branches leaf out among the last of all trees. Will become a great specimen.	Zone 4	Osage Orange Tree Maclura pomifera Dark shiny green leaves with super thorny branches. The fruit is lime yellow and always reminds me of monkey brains for some reason. Neat collectors tree.	Zone 5 Zone 5

Magnolia x Betty A more compact and dwarf form with purple red flowers in the spring. Sometimes reblooms in August.	Zone 5	Kiki's Broom Saucer Magnolia A witches broom from a Saucer Magnolia. Grows 1/3 Of the rate of the Saucer. Even its pink flowers are small. Very cute.	Zone 5
Susan Magnolia Magnolia x Susan Deep purple flowers in spring that periodically rebloom in the summer. Smaller compact form to 15 feet.	Zone 5	Rustica Rubra Saucer Magnolia Reddish blooms in spring adorn this classic Magnolia. Daybreak Magnolia	Zone 5
Magnolia x Rose Marie Extremely hardy form with deep pink blooms. Mature at 20 feet.	Zone 4	Magnolia sprengeri Eric Savill Red flowering variety with large leaves.	Zone 6
Cucumber Magnolia Magnolia acuminata Strong growing native tree with large leaves. Cream flowers and large red seed pods in the fall. Very popular native Carolinian species.	Zone 5	Magnolia sprengeri REL WB Witches broom of this species. New.	Zone 6
Golden Sun Cucumber Magnolia Magnolia acuminata Golden Sun You may be the first in Canada to own this yellow flowered version. Otherwise grows normally.	Zone 5	Magnolia x Daybreak One of the most sought after cultivars of soulangiana types. It flowers later than soulangiana therefore it almost never loses its flower to frost. A very rich pink colour makes this plant one of the most difficult cultivars to get a hold of.	Zone 5
Yulan Magnolia Magnolia denudata Forrest's Pink An extremely rare cultivar with pink flowers.	Zone 5	Magnolia x Elizabeth One of the first yellow hybrids. Fragrant flowers. Exceptional tree.	Zone 5
Kobus Magnolia Magnolia kobus Very hardy Magnolia that takes a little longer to bloom but beautiful white flowers will cover the tree. Medium grower.	Zone 4	Magnolia x Gold Star A vigorous pyramidal habit with light yellow flowers that are frost tolerant. RARE!	Zone 5
Ballerina Magnolia White finger petaled variety. Compact growing to 15 feet.	Zone 4b	Thunderchild Crabapple Malus Thunderchild	Zone 3
Chrysanthemum Flowered Magnolia Magnolia kobus var. stellata Chrysanthemumiflora Double flowered variety with double white flowers. Mature at 15 feet.	Zone 4b	Nice pyramidal tree with dark purple foliage 15ft. Small purple fruit that doesn't make a mess.	
Large Leafed Magnolia Magnolia macrophylla This plant looks tropical due to its enormous leaves. American native with impressive white flowers. RARE!	Zone 6	Contorted Mulberry Morus bombycis Unryu	Zone 5b
Oyama Magnolia Magnolia sieboldii Small tree with incredible nodding fragrant white flowers. Being successfully grown in Zone 4. A must for collectors.	Zone 5	Large leaved and contorted tree. Each plant becomes a work of art. Fast growing but needs a bit of protection in our climate.	
Jane Platt Star Magnolia Magnolia stellata Rosea Jane Platt An amazing newer variety that comes out with dusty pink finger petals. Very elegant looking.	Zone 5	Black Gum Nyssa sylvatica Smooth gray barked tree to 50 feet. Famous for its stunning bright burgundy and red fall colour. Native.	Zone 5
Magnolia Leonard Messel Another star like flower. Compact, small tree or shrub. Good for smaller spaces.		Sourwood Oxydendron arboreum	Zone 5
Moonglow Sweet Bay Magnolia Magnolia virginiana Moonglow A fast growing Magnolia that will bloom in 2 to 3 years. Dark green leaves with silver undersides. Flowers white with a lemon scent. Just released. Very new, and still rare. Hardy to -35C.	Zone 5	A native eastern American tree with exceptional glossy foliage. Bouquets of white flowers in summer. Few trees match the fall colour of this tree. Grows to 45 feet.	
Saucer Magnolia Magnolia soulangiana A classic garden tree with large pinkish flowers to 20 feet. Stunning show every spring.	Zone 5	Persian Parrotia Parrotia persica With its exfoliating bark, interesting branch structure and maroon flowers it is no wonder this plant is coveted around the world. Glowing fall colour. Mature at 15 feet. RARE!	Zone 5b
		Persian Parrotia Parrotia persica Vanessa A selection with unbelievable fall colouring it doesn't look real.	Zone 5b
		London Plane Plantanus x acerifolia Multicoloured bark of whites, tans and taupe are the stand out feature of this giant to 100 feet. Makes a great specimen or often used in rows to create an allee.	Zone 5
		Weeping Ornamental Plum Prunus cerasifera Pendula A creeping form if not staked. Covered in small pink flowers in the spring. Very showy and uncommon.	Zone 5

Japanese Weeping Cherry Prunus ser. Kiku-Shidare Double flowering rose coloured flowers. Doesn't growing too large so it can be placed in a plant border as an accent or stand alone specimen. Wonderful fall colours also.	Zone 5	Japanese Stewartia Stewartia pseudocamellia	Zone 5b
		Among the most desirable ornamental trees in the landscape. Striking camellia like flowers in spring, small size, interesting bark with age and impressive fall colours all make this tree a prime candidate. Should be placed in semi protected area.	
White Oak Quercus alba Our native oak, slow growing but makes a beautiful specimen over time. Good for wildlife.	Zone 4	Golden Weeping Willow Salix alba Tristis	Zone 3
		A classic tree used in wet areas. Very graceful looking as a specimen.	
Japanese Emperor Oak Quercus dentata	Zone 5	Contorted Weeping Willow Salix alba Torulosa	Zone 3
		Another fast growing yellow branched contorted willow. Weeping like the regular form only with the addition of contorted branches. Makes a large specimen.	
Pin Oak Quercus palustris Deeply incised leaves give this tree a distinct look. Not tolerant of heavy and poorly drained soils.	Zone 4	Variegated Japanese Willow Salix integra Hakuro Nishiki	Zone 5
		The first leaves almost white before turning to dusty pink and later white and green. Regular pruning will ensure best performance and colour.	
Chestnut Oak Quercus prinus Rare carolinian tree. Very ornamental and grows on even the poorest of soils. Used in basket making generations ago.	Zone 5	Corkscrew Willow Salix matsudana Torulosa	Zone 5
		A fast growing green tree with extremely contorted twisted branches and leaves. Tolerates moist soils. Grows to 60 feet. Makes a quick visual barrier.	
Acorn Oak Quercus prinoides A very rare native dwarf oak. Seeds at a very early age. Attracts turkeys and other wildlife.	Zone 5	Japanese Tree Lilac Syringa reticulata Ivory Silk	Zone 4
		We have both the shrub and tree form of this hardy and disease free tree. Flowers nearly one month after the French lilacs. Grows up to 15ft at maturity.	
Pyramidal English Oak Quercus robur Fastigiata Beautiful regal looking columnar tree most often used in rows or as single specimens which grow to 75' over time. Leaves tend to stay on the plants all winter.	Zone 5	Hungarian Lilac Syringa villosa	Zone 4
		Big bright pink flowers cover this large growing bush.	
Shingle Oak Quercus shumardii	Zone 4	French Lilac Syringa vulgaris	Zone 3
		Classic fragrant garden lilac. White or purple	
Black Oak Quercus velutina Another native species with very dark bark as it gets older. Quite difficult to distinguish from a red oak when young.	Zone 4	Variegated French Lilac	Zone 3
		Creamy yellow splashed throughout green leaves.	
Magnolia Vine Schisandra chinensis A hardy vine in the Magnolia family with creamy white drooping flowers. This plant is incredibly rare and I doubt very much that it has ever been offered before. Limited quantities.	Zone 4	Big Leafed Linden Tilia platyphyllos Laciniata	Zone 4
		Rare, deeply cut leaved form. Unusual for any Linden. Grows into a small conical tree.	
Korean Mountain Ash Sorbus alnifolia Rated as the most lovely of all ornamental mountain ash. Very clean and healthy leaves, white flowers and beautiful apricot fall colour. Definitely in my top 10 of small ornamental trees. Not always available.	Zone 5	Fragrant Snowball Viburnum cacecephalum	Zone 5
		Quite possibly the most fragrant viburnum. Ours are grafted into a tree form. Should be planted in full sun where the aromatic scents can be appreciated.	
Dwarf Pyramidal Mountain Ash Sorbus aucuparia Fastigiata	Zone 5	Zelkova Tree Zelkova serrata Green Veil	Zone 5
		May be the best clone of this species. Dark green Leaves, vase shaped with arching branching. Resembles our elm trees. Fall colour: yellow.	
Lovely compact pyramid with very dark green leaves and almost red berries in fall. Quite slow growing. There are several nice specimens here at the nursery which people always comment on.		Many shrubs and perennials are also available.
